

ADHESIVE TAPE BOPP 48MM/66M BROWN/TRANSPARENT - PALLET - 3024 UNITS

- **Adhesive tape BOPP 48mm/66m brown/transparent** - one pallet - **3024 units**
 - **Total thickness: 50µm microns (25µm + 25µm)**
 - **Strong adhesion (≥ 4.5 N/25mm)** for secure and lasting bonding
 - Versatile tape (25µm thickness) for fixing, packaging, and sealing needs
 - **Durable (35 N/cm tensile strength)** and flexible ($\geq 150\%$ elongation)
 - **Temperature resistant** (-20°C to 70°C) for reliable performance
 - **Compliant with safety standards (ROHS directives)** for user peace of mind
 - **Easy to apply** with good initial tack (**water-based acrylic resin/solvent acrylic glue**)
 - Cost-effective solution with 25µm BOPP film thickness
 - Reliable performance in **diverse environments with 50µm total thickness**
 - **Free from most chemicals** and moisture for added safety
 - Trusted adhesive tape (3024 units per pallet) for efficient and hassle-free usage
-

ADHESIVE TAPE BOPP 48MM/66M

BROWN/TRANSPARENT - PALLET - 3024 UNITS

High-quality adhesive tape specifically designed for various applications. Crafted with a premium pressure-sensitive adhesive coated on a high-quality BOPP film, PP50 offers exceptional performance and reliability. With its compliance with ROHS directives, this tape prioritizes user safety while delivering outstanding results.

PP50 boasts impressive material properties that make it an ideal choice for a wide range of applications. It's **water-based acrylic resin or solvent acrylic glue type ensures a strong and lasting bond**. With an adhesion to steel sheet (peeling) of ≥ 4.5 N/25mm according to ASTM D1000, PP50 guarantees reliable adhesion.

The **tape's tensile strength of 35 N/cm** demonstrates its durability, and its elongation (hold) of $\geq 150\%$ ensures flexibility even under stress. The thickness of the BOPP film is 0.025 mm (25 μ m), combined with the water emulsion thickness of 0.025 mm (25 μ m), resulting in a **total thickness of 0.050 mm (50 μ m)**. This construction provides optimal performance for various applications.

PP50 comes in a transparent and brown color, allowing you to choose the option that suits your needs. It has a **temperature rating ranging from -20°C to 70°C**, making it suitable for diverse environments. Its **flame resistance, classified as S (ASTM D1000)**, adds an extra layer of safety.

When stored in its original packaging at 21°C (70°F) and 50% relative humidity, PP50 has a shelf life of 12 months from the date of shipment, ensuring long-term usability.

This versatile tape finds its application in a variety of ways. Its initial tack and excellent adhesion make it ideal for fixing and packaging. Additionally, PP50 is well-suited for carton sealing, bandaging, temporary item fixation, and for other sealing tasks.

To achieve optimum adhesion, ensure that the bonding surface is clean, dry, and evenly uniform. The

recommended application temperature range is 21°C to 38°C (70°F to 100°F). Avoid using the tape on surfaces below 10°C (50°F) as the adhesive may harden, compromising adhesion. However, PP50 can provide satisfactory results even in low-temperature conditions if used correctly.

Choose PP50 adhesive tape for its reliability, versatility, and superior performance. Experience the exceptional quality that sets PP50 apart from the rest.

KEY FEATURES OF ADHESIVE TAPE BOPP 48MM/66M BROWN/TRANSPARENT - 3024 UNITS

- One pallet has 3024 units of Adhesive tape BOPP 50mic48mm/66m brown/transparent
- High-quality adhesive tape with pressure-sensitive adhesive and BOPP film coating
- Compliant with ROHS directives for user safety and environmental standards
- Offers strong adhesion to steel sheets, with a minimum peeling strength of 4.5 N/25mm
- Durable and flexible with a tensile strength of 35 N/cm and elongation of at least 150%
- Available in transparent or brown color
- Temperature resistant from -20°C to 70°C, ensuring suitability for various environments
- Versatile applications including fixing, packaging, carton sealing, and temporary item fixation

TECHNICAL SPECS OF 50 MIC ADHESIVE TAPE BOPP 48MM/66M

Specification	Value
Material	BOPP Film
Glue Type	Water Based Acrylic Resin/Solvent Acrylic
Adhesion to Steel Sheet (peeling)	≥ 4.5 N/25mm
Tensile Strength	35 N/cm
Elongation (hold)	≥ 150%
Thickness	0.050 mm (50µm)
Flame Resistance	S (ASTMD1000)
Color	Transparent, Brown, Customized
Temperature Rating	-20°C to 70°C
Shelf Life	12 months
Application	Fixing, Packaging, Carton Sealing, Temporary Fixation, etc.

WHY BUYING ADHESIVE TAPE BOPP IN BULK IS A GOOD IDEA?

- **Cost savings:** Buying in bulk often results in lower unit costs compared to buying smaller quantities. This can lead to significant cost savings in the long run.
- **Reduced packaging waste:** Purchasing in bulk reduces the amount of packaging materials used per unit, resulting in less waste generated overall.
- **Convenience and efficiency:** Buying in bulk means fewer individual transactions and less frequent reordering, saving time and effort in the procurement process.
- **Continuous supply:** With a larger quantity on hand, you are less likely to run out of stock, ensuring a continuous supply of the product.
- **Reduced transportation costs:** Purchasing larger quantities allows for more efficient transportation, as you can optimize shipping logistics and potentially benefit from lower freight costs.
- **Potential for resale or distribution:** Buying in bulk opens up opportunities for resale or distribution, allowing you to capitalize on potential business ventures or partnerships.

7 ADVANTAGES OF 50 MICRON ADHESIVE TAPE:

1. **Strong and reliable adhesion:** The adhesive tape offers a high level of adhesion, ensuring secure and long-lasting bonding for various applications.
2. **Versatile use:** It is suitable for a wide range of applications including fixing, packaging, carton sealing, bandaging, and temporary item fixation, providing versatility in its usage.
3. **Durable and flexible:** The tape exhibits excellent tensile strength and elongation, allowing it to withstand stress and movement without compromising its adhesive properties.
4. **Temperature resistant:** With a temperature rating ranging from -20°C to 70°C, the tape maintains its performance even in extreme temperature conditions, making it suitable for diverse environments.
5. **Compliance with safety standards:** The adhesive tape is free from most chemicals and moisture, and it complies with ROHS directives, prioritizing user safety and environmental standards.
6. **Easy to use:** It features a good initial tack, making it easy to apply and ensuring efficient and hassle-free usage.
7. **Cost-effective:** The adhesive tape offers a suitable price point for its quality and performance, providing cost-effective solutions for various bonding and sealing needs.

BUY ADHESIVE TAPE BOPP 50MIC IN BULK OR GET AN OFFER

Purchase it conveniently online or click the "GET OFFER" button above to receive an offer directly to your email. Don't miss out on this opportunity to secure your supply of this reliable and versatile adhesive tape. Place your order now or claim your exclusive offer.
