

## PALLET THREADING TOOL B190CM

- **Pallet strap feeder** is an innovative tool for efficient pallet strapping operations
- **1900mm highly flexible fiber rod** for smooth threading
- **Durable polyurethane clip** to hold straps securely
- Ergonomic design for standing operation, reducing strain
- Compatible with **PP, PET straps** up to **25mm width, 1.5mm thickness**
- Lightweight construction for ease of handling
- **Curved head design** prevents straps from getting stuck
- Built for durability in demanding environments
- Speeds up strapping processes while reducing operator fatigue
- Enhances workplace safety with less bending and kneeling
- Cost-effective investment with long-lasting performance
- **Fast Delivery - 12 months Warranty**

**PALLET THREADING TOOL**

**Pallet Strap Feeder B190** is an innovative tool designed to revolutionize pallet threading, ensuring faster, safer, and more ergonomic operations. Made from high-quality materials, it simplifies the task of threading plastic straps under pallets. **Pallet Strap Feeder B190** features a **1900mm highly flexible fiber rod** and a **durable polyurethane clip**, which work together to streamline the process, eliminating common issues like straps getting stuck or requiring excessive bending. Compatible with **PP (Polypropylene), PET (Polyester)**, and other straps up to **25mm in width and 1.5mm in thickness**, this versatile tool is a must-have for warehouses, shipping facilities, and logistics operations.

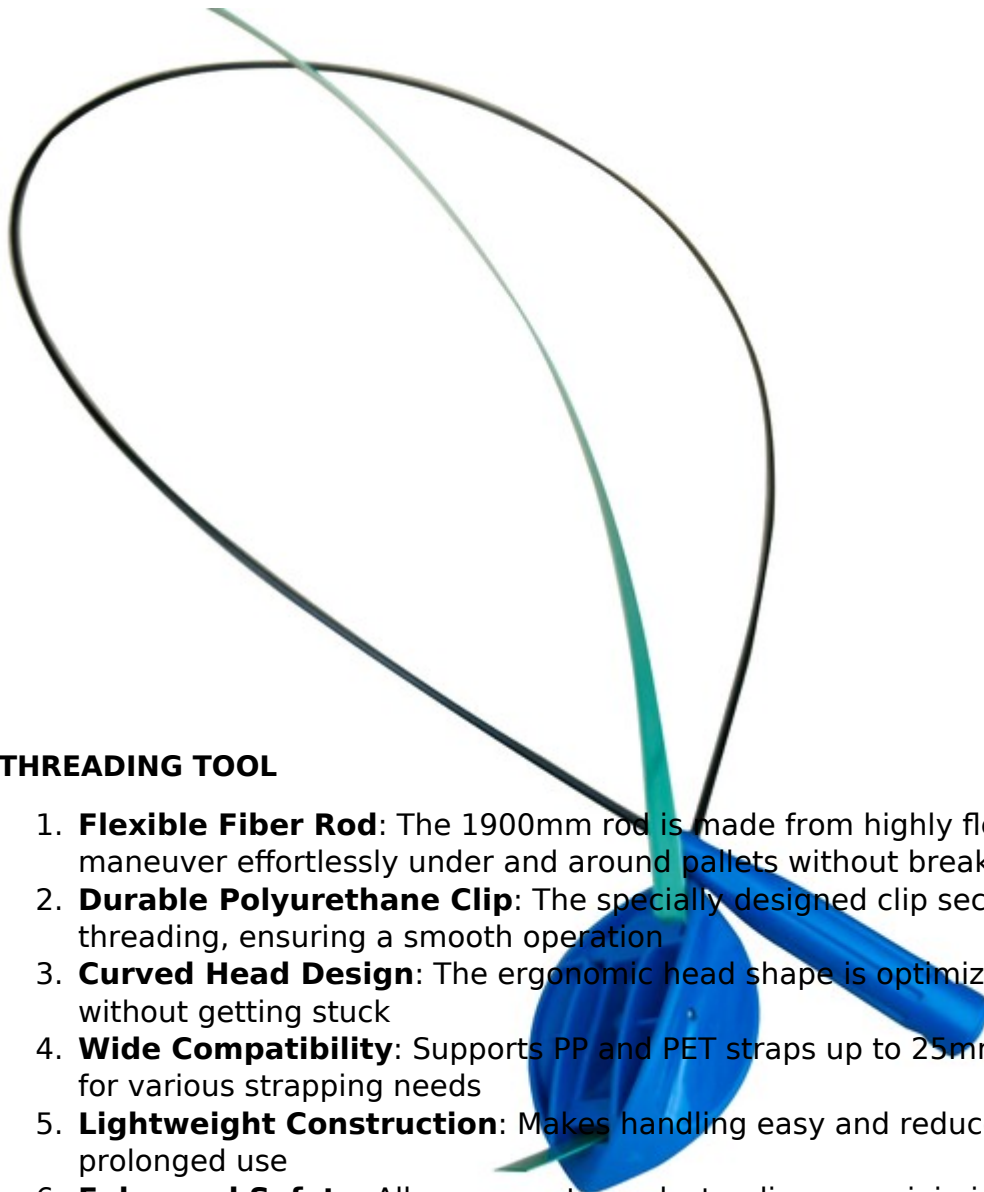

Threading plastic straps under pallets can be challenging due to the natural curve of the strap off the roll. The B190's **curved head design** ensures smooth movement over pallet rails, reducing friction and making threading easier. Its lightweight construction reduces operator fatigue, while the ergonomic design allows users to remain standing, avoiding the strain of stooping or kneeling. With a robust build and reliable functionality, this strap feeder is designed for demanding environments, offering durability and efficiency in one compact tool.

**SPECS OF PALLET STRAP FEEDER**

<b>Pallet strap feeder B190</b>	
<b>Dimension</b>	190 cm x 4.3 cm x 6.8 cm (L x H x W)

<b>Pallet strap feeder B190</b>	
<b>Gross Weight</b>	570 g
<b>Net Weight</b>	185 g
<b>Clip Head Dimension</b>	12.8 cm × 4.3 cm × 6.8 cm
<b>Carton Dimension</b>	75 cm × 41 cm × 5.5 cm
<b>Rod Material</b>	Highly flexible fiber rod
<b>Clip Material</b>	Durable and flexible polyurethane

## THREADING TOOL

1. **Flexible Fiber Rod:** The 1900mm rod is made from highly flexible fiber, allowing it to bend and maneuver effortlessly under and around pallets without breaking or deforming
2. **Durable Polyurethane Clip:** The specially designed clip securely holds straps in place during threading, ensuring a smooth operation
3. **Curved Head Design:** The ergonomic head shape is optimized for threading over pallet rails without getting stuck
4. **Wide Compatibility:** Supports PP and PET straps up to 25mm wide and 1.5mm thick, suitable for various strapping needs
5. **Lightweight Construction:** Makes handling easy and reduces operator fatigue during prolonged use
6. **Enhanced Safety:** Allows users to work standing up, minimizing physical strain and risk of injury

## KEY FEATURES OF PALLET

## WHERE TO USE PALLET STRAP FEEDER

Pallet Strap Feeder B190 is ideal for use in various environments, including:

- **Warehouses:** Perfect for organizing and securing palletized goods efficiently

- **Logistics Centers:** Speeds up packaging processes for shipments
- **Manufacturing Facilities:** Ensures easy and reliable strapping for products on pallets
- **Retail Distribution:** Facilitates seamless strapping for bulk deliveries

This tool is designed for professionals who value efficiency, safety, and convenience in their daily operations.

### BENEFITS OF PALLET STRAP FEEDER

- **Increased Efficiency:** Drastically reduces the time needed for strapping pallets, allowing operators to focus on other tasks
- **Ergonomic Design:** Eliminates the need for awkward bending or kneeling, promoting better posture and reducing fatigue
- **Reliable Performance:** Built with high-quality materials to withstand heavy use in demanding environments
- **Cost-Effective:** Saves time and labor costs by simplifying the strapping process
- **User-Friendly Operation:** Intuitive design makes it easy to use, even for beginners

### HOW TO USE THE PALLET THREADER B190

Using the Plastic threader B190 is straightforward and user-friendly:

1. **Insert the Strap:** Clip the strap securely into the polyurethane head of the tool.
2. **Feed Under the Pallet:** Use the flexible fiber rod to guide the strap under the pallet. The curved head will help navigate rails and obstacles effortlessly.
3. **Retrieve the Strap:** Pull the rod through the other side, unclip the strap, and proceed with your strapping process.

This simple three-step process ensures smooth and efficient pallet threading every time.

## CUSTOMER TESTIMONIALS OF PALLET THREADER

**"The Pallet threading tool B190 has revolutionized our warehouse operations. It's fast, efficient, and easy to use. Our team loves it!"**

- Sara T., Warehouse Manager

**"This tool is a must-have for anyone who works with pallets regularly. It saves so much time and effort."**

- Simon L., Logistics Coordinator

**"The B190 is incredibly durable and user-friendly. We couldn't imagine returning to old school Bending and kneeling method."**

- Monika J., Distribution Specialist

## PALLET THREADING TOOL

## ADVANTAGES OF

- **Less stooping and kneeling action**
- **Durable and flexible polyurethane clip**
- **Faster Operations:** Reduces the time required for pallet threading by allowing smooth and efficient strap feeding
- **Enhanced Safety:** Minimizes the need for bending or kneeling, reducing physical strain and workplace injuries
- **Durable Materials:** Built with a highly flexible fiber rod and a strong polyurethane clip, ensuring long-lasting performance
- **Ergonomic Design:** The curved head and lightweight construction make it comfortable and easy to use for extended periods
- **Versatile Compatibility:** Works seamlessly with PP, PET, and other straps up to 25mm wide and 1.5mm thick
- **Cost-Effective:** Saves time and reduces labor efforts, making it a valuable investment for operational efficiency
- **Reliable Performance:** Designed to prevent straps from getting stuck or detaching during the

threading process

### **PALLET THREADING TOOL PRICE**

Investing in the **Plastic Strap Feeder B190** is a prudent decision for businesses aiming to enhance operational efficiency and ensure workplace safety. Price of pallet threading tool is displayed above, the value it offers in terms of time savings and injury reduction makes it a cost-effective addition to your operations. By streamlining the pallet strapping process, this tool minimizes labor costs and boosts productivity, leading to a swift return on investment. Its durable construction and compatibility with various strap types further ensure long-term usability, making it a wise and economical choice for any organization involved in pallet strapping.

### **BUY PALLET THREADING TOOL**

The **Plastic Strap Feeder B190** is a reliable and efficient solution for pallet strapping needs. With a **1900mm flexible fiber rod** and a **durable polyurethane clip**, it offers seamless threading for plastic straps, reducing the effort and time involved. The tool's compatibility with **PP and PET straps** (up to **25mm in width and 1.5mm in thickness**) makes it a versatile choice for various operational settings. Its ergonomic design ensures operators can work comfortably without stooping or kneeling, enhancing both productivity and safety.

Built to last, the B190 delivers exceptional performance in warehouses, manufacturing facilities, and logistics centers. Its lightweight construction and innovative curved head design prevent straps from getting stuck, ensuring a smooth and efficient process every time.

You can acquire the **Plastic Strap Feeder B190** today by clicking the **Add to Cart** button for immediate purchase or by requesting a personalized quote through the **Get Offer** button. Elevate your operational efficiency and ensure workplace safety with this indispensable tool.
